

THE TOWN OF DISCOVERY BAY

# COMMITTED TO SERVING OUR COMMUNITY

Dear Resident/Business of the Town of Discovery Bay,

As your Community Services District (CSD), the Town of Discovery Bay is here to deliver and provide essential high-quality services that enhance our community's well-being and quality of life. From providing safe water and wastewater systems to maintaining our parks and recreation programs and keeping our community spaces beautiful, we're dedicated to meeting your needs.

We are mindful of the trust you place in the Town, and we take our responsibility to meet the evolving needs of our community seriously. This commitment is reflected in the key projects we're currently undertaking and planning for the near future. These include but are not limited to replacing aging water pipelines, installing Well 8 to meet growing water demands and planning a solar project to enhance energy efficiency. Additionally, to ensure compliance with state regulations, the Town will need to relocate its administrative building and is working toward constructing a cost-effective facility that will serve residents today and into the future.

To continue offering high-quality services and meet regulatory requirements, the Town prioritizes projects that affirm operations and facilities are up-to-date and offer the most efficient service for residents. Funding for water and wastewater improvements may involve occasionally setting rates to cover the costs associated with providing these services.

Maintaining our infrastructure is key to making Discovery Bay a great place to live, work and play. We value listening to our residents and shaping services to address the evolving needs of our town. Together, we can continue building a community that reflects the beliefs and aspirations of those who call it home.

Join us for an open house on May 1 from 3–8 p.m. at the Community Center to learn from subject-matter experts about the Town's key services and projects.
