Notice of Intent to Adopt a Mitigated Negative Declaration Study Results Available

Do you want a public hearing on repairs proposed for the State Route 4 Bridge over the Old River at the San Joaquin/Contra Costa County Line?

PUBLIC COMMENT PERIOD

Comments will be accepted June 11 through July 10, 2018

If there are no major comments or requests for a public hearing, Caltrans will proceed with the project's design.

WHAT IS BEING PLANNED?

The California Department of Transportation (Caltrans) proposes to extend the useful life of the swing bridge on State Route 4 over the Old River in the counties of San Joaquin and Contra Costa by (1) repairing and, where necessary, replacing the mechanical and electrical equipment that operates the movable portion of the bridge, (2) replacing the electrical power supply to the bridge by installing a new cable in the river bottom, and (3) adding a new control board and associated equipment to the control house above the traveled way on the bridge structure.

WHY THIS PUBLIC NOTICE?

Caltrans has studied the effects this project may have on the environment. Our studies show the project will not significantly affect the quality of the environment, and that there will be temporary construction impacts to traffic that may inconvenience commuters and boaters. This notice is to inform you of the preparation the Mitigated Negative Declaration and Initial Study and of its availability for you to read, and to offer the opportunity for a public hearing.
